Protective clothing designed for tough jobs.

Asepro, *Chemguard* and *Comfort* series provide safe and comfortable solutions against all kinds of risks, from chemicals and biological hazards to dust and liquid splashes.

Asepro

-  Special fabric structure that minimizes lint and particle release.
-  Design suitable for sterile production areas against contamination risk.
-  Antistatic, low-emission and lightweight structure.
-  Ideal for high hygiene environments such as cleanrooms, laboratories, and pharmaceutical production.
-  Model alternatives manufactured in sterile and clean processes.
-  Wide range of accessory options.

Chemguard

-  High-barrier material tested against hundreds of different chemicals.
-  Permeation resistance against toxic substances in liquid and gas form.
-  Full-body protection with tight seam construction and durable zipper systems.
-  Chemically protective performance verified at industrial level.
-  Color options suitable for your working environment.
-  Wide range of accessory options.

Comfort

-  All-day comfort with its lightweight, flexible and breathable structure.
-  High protection against micron-sized dusts, liquid chemicals and fibers.
-  Compatible for use in environments with explosion risk thanks to its antistatic properties.
-  Ideal for cleanroom and sensitive production areas with its additive- and filler-free structure.
-  The ideal solution offering both safety and comfort in industrial operations.
-  Wide range of accessory options.
